

FORSTER PRODUCTS

Co-Ax[®] Reloading Press

Don't be confused by imitations – our Co-Ax is the simplest, most powerful, and most accurate press on the market.

Give your rounds that famous Forster Products precision with this workhorse that serves three critical functions in the reloading process:

- 1 Size Case**
Holds the sizing die and case in true co-axial alignment.
- 2 Prime Case**
Squarely inserts the primer into the sized case to the correct depth.
- 3 Bullet Seating**
Seats projectiles straight and within true co-axial alignment.

Our Co-Ax Reloading Press helps you achieve uncompromising performance and superior results.

HISTORICAL TIMELINE OF THE FORSTER PRODUCTS CO-AX[®] PRESS

U.S. Patent #3,345,903* granted to Bonanza

1967

2019

*Designed by C.E. Purdie, Mathematician and Pilot

Straight shooters.

From Forster Products, the one and only Co-Ax® Reloading Press.

Engineered with extremely tight tolerance, preventing the primer from being crushed or seated over flush

Rugged, automotive-grade iron, cast in Galena, IL, home of President U.S. Grant

Accommodate case rims as small as 0.312" (22 Hornet) or as large as 0.625" (45-70)

The stroke stops at a fixed point for consistency of case headspace and bullet seating dimensions

Allows you to quickly change dies, and accepts any manufacturer's 7/8"-14 die

Takes your reloading out of the workshop and into the living room, keeps Press working parts free of dirt and abrasives

How to Purchase

WARRANTY

All Forster Products are warranted against defects in materials and workmanship for the life of the product. Parts which, by nature of their function, are subject to normal wear (such as springs, pins, etc.) and parts which have been altered, abused or neglected, are excluded from the warranty. If the product is deemed defective by workmanship or materials, it will be repaired, reconditioned or replaced (at Forster's option). This warranty supersedes all other warranties for Forster Products whether written or oral.
