

PRESSING MATTERS AT FORSTER PRODUCTS

Co-Ax® Reloading Press

The simplest, most powerful, and most accurate press on the market, bar none.

PRIMER SEATER

Engineered with extremely tight tolerance, preventing the primer from being crushed or the depth varying

CASTING

Rugged, automotive-grade iron, cast in Galena, IL, home of President U.S. Grant

ROCK-SOLID STOPS

The top of the stroke terminates at a fixed point for consistency of headspace and seating dimensions

SHELL HOLDER JAWS

Accommodate case rims as narrow as 0.312" or as wide as 0.625" (O.D.)

LOCK RING

Snap-in, snap-out dies in all of two seconds, accepts any manufacturer's 7/8"-14 die

PRIMER CATCH CUP

Takes your reloading out of the workshop and into the living room, keeps Press working parts free of dirt and abrasives

FLOATING JAWS

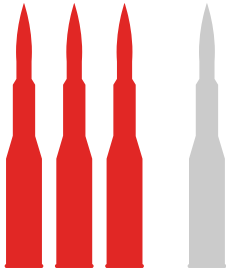

ALIGN the case and bullet
PRECISELY, COAXIALLY with
your reloading dies

NO REMOVABLE
shell holders required

2 SECONDS

is all it takes to change
from sizer die to seater die

3X

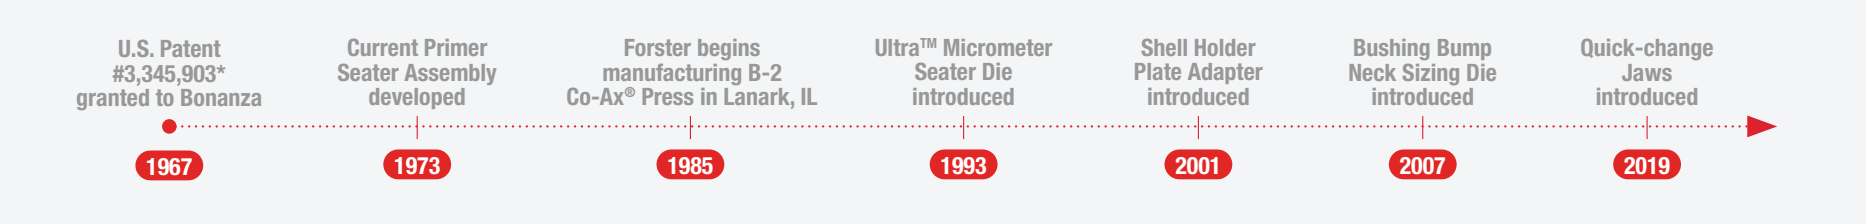

Our Co-Ax® Press has three times
the mechanical advantage of an
ordinary "C" press

ZERO TORQUE

Because there is absolutely no
torque on the head of the Co-Ax®
Press, long life is the rule rather
than the exception

HISTORICAL TIMELINE OF THE FORSTER PRODUCTS CO-AX® PRESS

*Designed by C.E. Purdie, Mathematician and Pilot

Forster Products makes the one, the only Co-Ax® Press. Don't be confused by imitations.
Our tools give you precision and uncompromising performance so you achieve superior results.
