Powder Funnel with Long Drop Tube User Instructions

Our powder funnel can help add more powder for a full load capacity.

1.0 GENERAL INFORMATION

- Combination of funnel and 5 ¼" long drop tube
- Can add from three to eight more grains of powder to your load.
- Momentum of powder dropping down the tube results in a larger volume by weight, so it's not necessary to compress the charge.

2.0 SAFETY INFORMATION

- Always wear safety glasses.

3.0 HELPFUL HINT

- Works best with 4831™ powder and other slow-burning powders when full load capacities are desired.

4.0 ORDERING INFORMATION

We recommend ordering from a dealer or distributor. Their experience and knowledge will help you select the best products that meet your specific requirements. In addition, they usually offer the best prices and convenient delivery options.

To find a Reseller, go to forsterproducts.com and click **Distributors**. If your distributor cannot supply you, or if you need parts, please contact Forster Products directly by email, phone, or fax.

WARRANTY

All Forster Products are warranted against defects in materials and workmanship for the life of the product. Parts which, by nature of their function, are subject to normal wear (such as springs, pins, etc.) and parts which have been altered, abused or neglected, are excluded from the warranty. If the product is deemed defective by workmanship or materials, it will be repaired, reconditioned or replaced (at Forster's option). This warranty supersedes all other warranties for Forster Products whether written or oral.
